NON-SLIP MAT

For load securing

Corresponds to guidelines in accordance with VDI 2700 sheet 14

PVC soft foam cover

Only 3.0 mm thick

Therefore fully flexible, lightweight, space-saving, and able to hold its shape

Balances out minor ground unevenness

Can be used on both sides

Closed surface

No absorption of fluids, and therefore no freezing in winter

High coefficients of sliding friction

From 0.8–1.0 μ

Tear resistance

Longitudinal direction ≥ 352 N/5 cm
Transverse direction ≥ 176 N/5 cm

Elongation at break

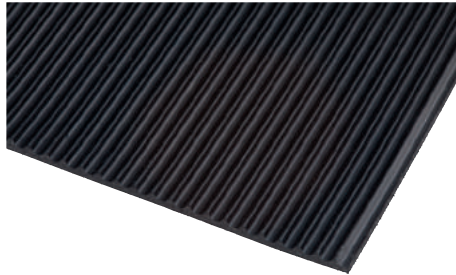

Longitudinal direction ≥ 22 %
Transverse direction ≥ 21 %

Notice

The load is secured toward the front and back between four barrier beams.

The barrier beams are placed as close to the loaded goods as possible and the roof and floor rails are then secured with a positive fit.

Depending on the loaded goods, use transverse braces between the barrier beams.

Lateral securing is done with the lashing belts attached to the barrier beams.

Application area

Vehicle interior equipment and load securing
Logistics, industry, trade, hospital, office and domestic

For load securing

Meets the legal load securing requirements in accordance with § 22 StVO and VDI 2700 et seq

High coefficient of sliding friction

Up to 10 t/m² depending on friction surface Surface pressure of 0.94–1.49 µ

Only 4.5 mm thick

Therefore fully flexible, light, space-saving and resistant to deformation

Extremely robust – can be driven over, stressed and easy to clean

Compensates for minor surface unevenness

Can be used on both sides

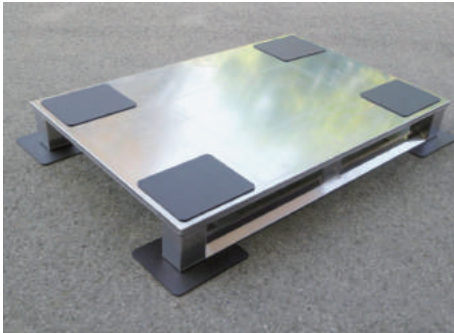

Closed surface

No retention of liquids and thus no formation of frost when used in winter

Resistant

to many acids, alkalis as well as petrol and diesel

Application area

Vehicle interior equipment and load securing
in logistics, industry and trade

For protecting transported goods and load securing belts

High coefficient of sliding friction

Up to 10 t/m² depending on friction surface Surface pressure of 0.94–1.49 μ

Maximum safety

Thanks to non-slip effect on the loading side – tested and confirmed by several testing institutes

Only 4.5 mm thick

Therefore fully flexible, light, space-saving and resistant to deformation

Resistant

to many acids, alkalis as well as petrol and diesel

Minimises damage to transported goods, protects belts against loads with sharp edges

Save time over the long term

As a result of fixation on the tension belt

LOAD SECURING BOX

VOLTAGE TRANSFORMER FOR CIGARETTE LIGHTER

ORSY mobil

Ideal for mobile use

Trouble-free operation of low-power consumers such as laptops, television sets and mobile phone chargers;

the voltage transformer converts the low DC input voltage (12 volt) to a higher voltage (230 volt)

Item no.	0963 80 944
P. Qty.	1
Type description	SSW150
Input voltage	12 V/DC
Output voltage	230 V/AC
Continuous power	150 W
Peak power	300 W
Product weight (per item)	1.3 kg

Application area

TV and satellite systems, audio systems, tools, pumps, household appliances, compressors, chargers for mobile phones or laptops, taking the maximum power output of the particular voltage transformer into account

For mobile and mains-independent power supply to assorted 230-volt AC consumers from a 12-volt car battery.

Trouble-free operation of flexible devices

Microprocessor-controlled electronics monitor the most important parameters, such as output voltage, frequency and input voltage

The device also features comprehensive protective circuitry: reverse polarity protection, excess input voltage, short circuit and output overloads, excess temperature switch-off

The voltage transformer also supplies power to suitable devices via a USB connection

Using the switchable stand-by function,

the voltage transformer's internal power consumption can be minimised by the device being switched on only when the connected consumers are activated

The devices are equipped with adjustable deep discharge protection

A voltage between 9.0–11.5 volts can be selected

Pure sine wave output voltage

Controlled by a digital signal processor

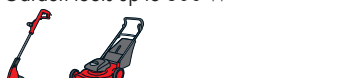

230 volt/50 Hz

Galvanically isolated

Approved for use in motor vehicles

Optional remote control

Notice

Fitting guidelines from the relevant vehicle manufacturer must be observed during installation.

Can be connected to a cigarette lighter via an LED distributor box and LED connection cable with plug, or directly to the vehicle's interior lighting circuit.

Brings light to dark corners that the vehicle lighting does not reach.

Individual vehicle interior, work-place and shelf lighting.

Can also be used as ceiling lighting.

Easy mounting

Using self-adhesive strips on back of module

Can be cut to length in 10 cm intervals (see marking).

Easy to extend

By attaching additional LED strips (max. 6 pieces, max. length 360 cm)

Very flat construction

This means there are no interfering edges

Cold light

Light has no UV content

Angle of light emittance: 120°

Luminous flux per strip: approx. 400 lumens

Contents: 2 pieces

- 1 x 60 cm LED strip with 24 LEDs
- 1 x LED connection cable, 2 metre length

Foot control for automatic retraction and extension

- Enables loading and unloading that is easy on joints and backs
- Non-slip step surface
- Can be used across the entire width of the vehicle
- Registration-free
- Trailer operation – also possible for trailers with support wheel
- Compatible with Parktronic systems
- Step tread made of high-quality, galvanised and black powder-coated steel
- Shifting mechanism made of stainless steel
- Load-bearing capacity 150 kg
- Dimensions of the step surface: 1600 x 250 mm
- Supplied with installation material and ABE (Allgemeine Betriebserlaubnis – general operating license) from the Kraftfahrtbundesamt (German Federal Motor Transport Authority)

Instructions

Actuation of the foot locking device extends the step tread immediately and automatically secures it against inadvertent retraction when it is stepped on after reaching the entry position. To retract the step tread, the foot locking device is actuated again and pushed back by applying force with the feet. The step tread is locked in the driving position automatically.
