

W.EASY® SMART CASE

The new small W.EASY Smart Case allows a secure and easy accessible storage of your diagnostic hardware.

The most important hardware components practically stowed away and immediately available

Smart solution for low hardware requirements!*

Art.-No. WW01 000 233

Optimal for rough day-to-day workshop activities: The case, consisting of a robust plastic housing and a sturdy hard foam inserts inside, is optimally adapted to the rough conditions in the workshop.

Small but nice: With dimensions of 437 mm * 379 mm * 130 mm the W.EASY Smart Case is particularly handy and ideally suited for low hardware requirements.

Practically stowed and immediately available: Thanks to the two well thought-out inserts, each cable and each component has its place and is immediately within reach.

Possible equipment upper insert:

- Nine freely assignable places for the multi-brand cable adapters, of which two places are also suitable for longer cables
- One large universal compartment

Possible equipment lower insert:

- W.EASY Box 2.0 with OBD 16pin cable and USB cable
- 7pin ISO 7634 Trailer
- VCI adapter cable to WABCO cable
- Large universal compartment for example for the ZF3+6+9 Pin OBD cable

*Exemplary representation. Deviations are possible.
