MARITIME BOND + SEAL

PU marine portholes sealant

Elastic adhesive and sealant for plastic windows in marine applications

- 1-component polyurethane adhesive and sealing compound specially developed for use in boat repair and boat building. Typical applications are the bonding and joining of artificial glass panes and portholes.
- Typical surfaces include acrylic glass (PMMA), polycarbonate, aluminium, GFRP, stainless steel, wood. Not suitable for PE, PP, PTFE, silicone rubber, polystyrene and softened plastics.

Contents: 310 ml

Art. No. 0893 295 3

Colour: Black

PU marine adhesive sealant multi

Versatile elastic adhesive and sealant for various marine applications

- 1-component polyurethane adhesive and sealant specially developed for use in boat repair, boat & yacht building as well as in the ship building industry.
- For variable, waterproof, weather-resistant sealing tasks and simple bonding for inboard and outboard use.
- PU Marine Adhesive Sealant Multi impresses with its broad adhesive strength properties on the relevant surface materials such as wood, aluminium, PVC, polyester, glass fibre reinforced plastics (GFRP) and metals. Not suitable for teak, PE, PP, PTFE, silicone rubber, polystyrene and softened plastics.

Contents: 310 ml

Art. No. 0893 291 1

Colour: White

Contents: 310 ml

Art. No. 0893 291 3

Colour: Black

PU Marine adhesive sealant power

Versatile elastic adhesive for marine applications

- 1-component polyurethane adhesive with sealing properties specially developed for use in boat repair, boat & yacht building as well as in the ship building industry.
- Suitable for bonding various materials with higher performance and long-term load-bearing capacity such as polyester, glass fibre reinforced plastics (GFRP), glass, aluminium, metals, wood, and plastics.
- PU Marine Adhesive Sealant Power is suitable for outboard use on the deck, hull and keel - including below the water line bondings after curing. Inboard use typical features the installation of structures, walls or vertically fitted panels.

Contents: 310 ml

Art. No. 0892 292 1

Colour: White

2690/2020

Meets the Marine Equipment Directive (MED) / International Maritime Organization (IMO) requirements

MARITIME BOND + SEAL

Activating cleaner

Surface activating cleaner

For cleaning and activating non-porous substrates such as aluminium (anodised), steel, high-grade steel (stainless), galvanised steel (hot-dipped or galvanic) as well as for 2-component top coat, (PU, epoxy), 2-component water-based primers and paints, powder coatings, glass fibre-reinforced plastic (unsaturated polyester) or laminate gelcoat

Contents: 400 ml
Art. No. 0890 100 60

Primer for metal

Surface optimisation of metallic surfaces

Primer for metal acts as an adhesion agent between adhesives and metallic materials (steel, stainless steel, hot-dip zinc-plated steel, aluminium, anodised aluminium, copper, brass, zinc).

Contents: 250 ml
Art. No. 0890 100 61

Primer for plastic/wood/stone

Surface optimisation of plastic, wood & stone surfaces

Primer acts as a bonding agent between adhesives and the following substrates: plastics such as UP, GRP, EP, PVC, ABS, uPVC, untreated wood and wood products (press boards), natural stone, concrete, mineral mortar and plasters, textiles and non-woven materials.

Contents: 250 ml
Art. No. 0890 100 62

Safety glasses electra
